

## **FOR IMMEDIATE RELEASE**

### **Intra Management Solutions Inc. Launches Intra Management Software & Technologies and Acquires Barbecana**

**Frisco, Texas – 11/1/2024**

Intra Management Solutions Inc. (IMS) is proud to announce the launch of a new division, Intra Management Software & Technologies, alongside the strategic acquisition of Barbecana, a leader in project management software. This initiative enhances IMS's technological capabilities and provides worldwide comprehensive solutions for project managers.

The establishment of Intra Management Software & Technologies marks a significant step in IMS's commitment to innovation and excellence in project management. By integrating Barbecana's renowned scheduling and risk management tools, the new division aims to create a robust suite of software solutions that will empower organizations to navigate complex projects easily.

"We are excited to introduce Intra Management Software & Technologies as a dedicated arm of our company," said Chastity Scott, CEO of IMS. "The acquisition of Barbecana is a strategic move that enhances our offerings, allowing us to deliver more advanced and effective tools for project management."

Barbecana has established itself as a trusted provider of cutting-edge project management solutions since its founding in 2006. Its flagship products, including Full Monte and Schedule Inspector, are widely used across various industries to improve scheduling accuracy and mitigate project risks.

Launching this new division and acquisition will enable IMS to expand its product lineup, enhance customer support, and invest in research and development, further solidifying its position as a leader in the project management industry.

Both companies are dedicated to ensuring a seamless transition for Barbecana's existing customers and will continue to provide the high-quality service and support they expect.
